

What Is Hit Trax??

A powerful combination of analytics and entertainment system that allows the realism of the outdoor game into an indoor environment.

Features:

- Real time statistics with Visual Feedback
- Adaptable to All Skill Level: Little League to Professional
- Gaming Module & Home Run Derby Contests
- Baseball and Softball
- Measurements of Launch Angle, Exit Velocity, Distance and much more!

Who We Are

About Us

“At 5 Tool Baseball, our goal is to make each athlete’s experience an educational, fun, and a welcoming atmosphere. Our ultimate goal is to create strong relationships through the game of baseball. We pride ourselves on staying up to date with the best training methods. The game of baseball remains constant but, technology, training regimens, and knowledge is always evolving. Here at 5TB we research new data daily to give our athletes the best instruction possible.” - Cameron Cook

Top Gun Hitting

A program designed to increase Exit Velocity, train to drive the ball consistently and be well educated on approach. This program is fueled with an environment full of competition.

What Tools Are Used?

- Weighted Bats
- Plyo Balls
- Hit Trax
- 960fps camera to break down swings
- Live At-Bats

Axe Bat Training

Main objective of these bats is to create a consistent and efficient swing, giving the player a greater chance in being more successful during games.

How Do the Bats and Balls Help?

Overload End Load: Swinging the end loaded heavy bat helps the hitter learn how to adjust and stay short to the baseball. (This helps flaw such as casting out)

Overload Hand Load: Hand load bat is heavy at the knob. This helps in maximizing barrel whip through the desired swing plane of the hitter. (Helps in flaws of rolling over)

Underload: the lightest of the three. The focus of this bat is to maximize hand “bat” speed through the hitting zone. (everyone loves this bat)

Plyo Balls: Weighted balls main objective is to increase Exit Velocity (how hard the ball comes off the bat), distance and consistent backspin on the ball.

How Much Will It Cost?

The program is available in different packages (program recommends 3-5 days a week):

- \$225 per month, 4 Days
- \$200 per month, 3 Days
- \$185 per month, 2 Days

(This program is baseball and softball, recommended for ages 10+)

Key Clients

Here are a couple of clients that benefitted from training in Top Gun:

- **Blake Perdue** (Midland College/WT)
- **Cooper Edwards** (Vernon College/Cameron)
- **Caleb Flores** (Amarillo HS/WT)
- **Benton Rogers** (Midland College/WT)
- **Ethan Washburn** (WT)
- **Mayson Mays** (Amarillo HS/WT)
- **Alyx Cordell** (Canyon HS/WT)
